

BESSOIMPORTS.COM
2024-25 SEASON

MISSION

BESSO IMPORTS curates and distributes unique footwear and accessories from across the European Alps to the North American Market.

FOUNDED IN 2012 by the husband and wife team of Sandy Diem and Bob Richardson, the Richardsons spent years seeking out unique products to bring to their store in Mont Tremblant, Canada. Now Besso Imports makes these same products available to high-end ski, sport, shoe and accessory shops across North America.

THE FAMILY theme runs large at Besso Imports. Sandy and Bob named the company after the Besso Mountain in Zinal Switzerland, a small ski village that they visited for close to 50 years, and all products distributed are sourced from family-owned and operated businesses in the Alps.

OUR BRANDS

AMMANN OF SWITZERLAND

The shoe factory Ammann & Co was founded in 1917. For over 20 years, Ammann shoes have been produced at the family-owned shoe factory in Bimac, Italy. Each model is made with real cowhide or velour leather and... the inside is lined with a high quality cosy lamb fur or leather.

KARLEN SWISS

In the tiny village of Torbel in canton Valais, located in the valley of Zermatt, a booming cottage industry is churning out fashionable accessories. Torbel is the home to the Karlen family who make the unique and trendy "Swiss Army Recycling Collection"— an ensemble of bags made from old recycled Swiss Army blankets, with recycled army leather straps wherever possible.

SIMA GÜRTEL OF AUSTRIA

Sima Gürtel GmbH is a small family owned and operated company established in 1984. Sima specializes in unique bags and belts with Austrian and alpine motifs. Sima products are designed with a combination of materials: new leather, recycled leather, recycled army leather bags, cowskin, rabbit fur, metal appliqués and Austrian crystals.

BESSO COLLECTION

Besso Collection Belts were individually designed by Sandy Diem to compliment Ammann of Switzerland's collection of boots and shoes. The leather material sourced for the crafting of the belts is the same as the leathers used in Ammann's manufacturing. The styles are updated with Ammann's release of new collections.

BOOT CARE

LEATHER

- Clean with a slightly wet piece of fabric, and then dry with a different piece.
- Afterwards use a common protection spray and let them dry for a few hours.

SUEDE

- Clean with a special steel brush for suede, then use a common protection spray.

COWHIDE PDV PORTION

- No need to do anything. If the fur has some dirty parts, use a normal toothbrush (NOT A STEEL BRUSH) to wipe stains off, and nothing more.
- There are special FUR sprays on the market if desired, but as mentioned there is no need.
